# FLUID GENERATION

DESIGN BY ANTON KOBRINETZ

Fluid generation is about the organic way forms are created connected to the sub conscience, they seem (random) to spontaneously come from nowhere at the same time take a form of least resistance as thought born in water thus fluid. The result is a collection of sculptural objects that shock the interior space.

# SPA LOGIC

THE ARCHITECTURE OF WELLNESS

The SpaLogic mission is to use our large expertise in design to modify the shapes of the objects being used in Spas and full service beauty salons, taking inspiration from the oriental philosophy as regards function. The aim is to realize a fusion between Eastern and Western design to respond to the significant call for change from upscale American Spas as well as to the growing European spa market.
